Support Crew Guide

Welcome!

Thank you for taking part as a support member for a rider in the 2021 Garmin UNBOUND Gravel p/b Craft Sportswear. You will be integral in the success of the athletes you are supporting. We have created this guide in order to help you help your athletes be successful. If you have any questions about the event, please visit unboundgravel.com and send us a note.

COVID Guidelines:

We are thrilled to be hosting the event this year. But, we know we are not completely in the clear yet. With that in mind, it is our top priority to keep all persons involved with the event and the local communities safe. We ask that all participants, volunteers, support and spectators follow event guidelines in order to remain diligent against the ongoing pandemic.

- The best line of defense is to maintain distance from people outside of your travel group. Please remain in your vehicle if you are not servicing your rider(s), or seeking out food or restrooms.
- If you do need to leave your vehicle and cannot maintain 6 feet or more of social distance, please wear a face covering.

Checkpoints:

Below you will find the schedule and cut-off times for the checkpoints for both the 200-mile and 100-mile event. We have also included layout maps that will help you find where you should park within those checkpoint locations.

You will see the parking labeled with multiple colors. This is to help organize the support crews in a way that will make it easier for the athletes to find their crew. Each athlete will receive a lanyard with a badge at Packet Pick Up that is to be given to their support crew team. That badge is to be shown when arriving at the checkpoint locations. **YOU MUST KEEP THIS WITH YOU AS IT IS REQUIRED TO GAIN ACCESS TO THE CHECKPOINT LOCATIONS.** These badges are color coded. Simply follow the signage / maps to find your designated parking zone.

Schedule:

11th and Commercial - Departing Northbound
