YOUR GARMIN GUIDE
100 TRAINING PLAN

WELCOME RIDERS!

YOUR TRAINING PLAN

Congratulations on being selected to participate in Garmin UNBOUND Gravel presented by Craft Sportswear the World's Premier Gravel Grinder. Garmin UNBOUND Gravel presented by Craft Sportswear is a challenging event, but the reward of crossing the finish line in downtown Emporia is like no other. This training plan is designed to help you get to the start line physically prepared for the challenges ahead.

HERE ARE A FEW TIPS FOR USING THIS GUIDE

1. Customize the workouts to fit your schedule. Shorten the workouts if necessary or swap workouts throughout the week to fit into your life.
2. Consistency is key in training for Garmin UNBOUND Gravel. Even if you can't follow all the workouts perfectly, stay focused on riding consistently throughout the Spring.
3. Each workout provides a suggested ride time rather than miles to help you fit these rides into your daily schedule.
4. Come into this plan having already established a consistent riding routine.
You can start from zero with this plan, but you'll see bigger results if you already have strong base fitness.
5. Have fun and stay positive! You're already on track to success by following a plan!

GARMIN®

FINDING YOUR TRAINING ZONES

FTP AND FTTHR ZONES

FTP is your Functional Threshold Power and your FTTHR is your Functional Threshold Heart Rate. If you have a power meter or a heart rate monitor, perform an FTP or FTTHR test to determine your zones:

- A) Warm up well. Then ride for 20 minutes as hard as you can and record your average power or heart rate for that 20-minute segment.
- B) Determine your FTP by taking 95% of your 20-minute power average. Use this number to determine your zones by using the percentages below.
- C) Determine your FTTHR by taking your average heart rate from the 20-minute effort and using this number to determine your zones by using the percentages below.

PERCEIVED EXERTION

Perceived Exertion is based on a scale of 1-10 with 1 being very easy spinning and 10 being a short, all-out sprint. Most Garmin UNBOUND Gravel presented by Craft Sportswear training occurs between a zone of 2 and 4 due to the nature of this long gravel event. If you don't have a power meter or heart rate monitor, use the Perceived Exertion ranges below that correspond with each training zone.

ZONE	DESCRIPTION	PERCEIVED EXERTION	POWER ZONES	HEART RATE ZONES	YOUR POWER OR HEART RATE ZONES
1	Active Recovery	< 2	< 55%	< 68%	_____
2	Endurance	2-3	55-75%	69-83%	_____
3	Tempo	3-4	75-90%	84-94%	_____
4	Threshold	4-5	90-105%	95-105%	_____
5	VO2 Max	6-7	105-120%	106-110%	_____
6	Sprint	7+	> 120%	> 111%	_____

GOALS/TIPS & TRICKS

Each workout in Your Garmin Guide Training Plan for Garmin UNBOUND Gravel presented by Craft Sportswear provides efforts or intervals at different intensity levels. These zones range from 1 – 6. You can determine your zone efforts several different ways.

GOAL SETTINGS

Set your intentions for the season. Pick three training or race goals that you can focus on while training for Garmin UNBOUND Gravel presented by Craft Sportswear and write them below:

1

2

3

NUTRITION & HYDRATION

Practice your nutrition and hydration race plan during training. Decide what and how much to eat and drink each hour to keep you body topped up. Remember that Garmin UNBOUND Gravel presented by Craft Sportswear can be very hot, so plan accordingly.

FOODS

DRINK

EQUIPMENT CHECK

Make sure your bike is in great working condition. Schedule an appointment with your local bike shop for a tune-up several weeks before UNBOUND. That way, you can hit the start line feeling confident in both your training and your equipment.

Set up your "checkpoint" with extra hydration and nutrition to resupply after each loop. Ride for approximately 40-50 miles before stopping at your checkpoint to resupply your food and drink.</p> <p>Repeat the loop or choose another 40-50 mile route to finish off your race simulation. Ride your goal race pace or effort to practice. Recover well after this big effort!</p> </div>

Checkpoint Tips

1. Stay organized when planning your race day strategy. Arrange your checkpoint equipment so it's easy to find everything you might need during the race.

2. Practice your checkpoint routine with your support crew so everyone knows what to expect. Practice what order you want to fill up your water bottles, collect more food, and take care of any bike maintenance.

3. The checkpoint area can get busy and feel overwhelming, so take a deep breath and relax as you ride into the chaos and look for your support crew.

4. Thank your support crew!

1 DAY OFF

2 PRE RACE RIDE
1HR

- 30 min warm up
- 3x1 min Zone 3
- 2 min easy between
- 10 min build from low Zone 3 to mid Zone 4
- 3x1 min Zone 4
- 2 min easy between
- Cool down Zone 2

3 UNBOUND 100
RACE DAY

Good Luck! Pace your effort throughout the race and focus on your nutrition and hydration plan! Have fun!

4 CELEBRATE!!!

GARMIN.

The background of the image consists of numerous thin, dark blue lines radiating from a single point at the bottom center towards the top edges, creating a sunburst or starburst effect. The lines vary in length and angle, filling the entire frame.
