2. Consistency is key in training for Garmin UNBOUND Gravel. Even if you can't follow all the workouts perfectly, stay focused on riding consistently throughout the Spring.
3. Each workout provides a suggested ride time rather than miles to help you fit these rides into your daily schedule.
4. Come into this plan having already established a consistent riding routine.
You can start from zero with this plan, but you'll see bigger results if you already have strong base fitness.
5. Have fun and stay positive! You're already on track to success by following a plan!

FINDING YOUR TRAINING ZONES

FTP AND FTTHR ZONES

FTP is your Functional Threshold Power and your FTTHR is your Functional Threshold Heart Rate. If you have a power meter or a heart rate monitor, perform an FTP or FTTHR test to determine your zones:

- A) Warm up well. Then ride for 20 minutes as hard as you can and record your average power or heart rate for that 20-minute segment.
- B) Determine your FTP by taking 95% of your 20-minute power average. Use this number to determine your zones by using the percentages below.
- C) Determine your FTTHR by taking your average heart rate from the 20-minute effort and using this number to determine your zones by using the percentages below.

PERCEIVED EXERTION

Perceived Exertion is based on a scale of 1-10 with 1 being very easy spinning and 10 being a short, all-out sprint. Most Garmin UNBOUND Gravel presented by Craft Sportswear training occurs between a zone of 2 and 4 due to the nature of this long gravel event. If you don't have a power meter or heart rate monitor, use the Perceived Exertion ranges below that correspond with each training zone.

ZONE	DESCRIPTION	PERCEIVED EXERTION	POWER ZONES	HEART RATE ZONES	YOUR POWER OR HEART RATE ZONES
1	Active Recovery	< 2	< 55%	< 68%	_____
2	Endurance	2-3	55-75%	69-83%	_____
3	Tempo	3-4	75-90%	84-94%	_____
4	Threshold	4-5	90-105%	95-105%	_____

RESUPPLY TIPS

UNBOUND Gravel is a fully unsupported event where riders must rely on convenience stores and local shops to resupply on food and drinks. Here are some tips to make this process faster, easier, and less stressful.

1. Plan and practice ahead of time. Visit convenience stores during your UNBOUND Gravel 25 training rides and become familiar with the food and drinks available. Know what products work for you so you can make decisions quickly and with confidence during the race.
2. Stay organized. Carry your money or credit card in a secure location while on the bike. But make sure it is easy to find so you don't waste time searching for it when you arrive at the store.
3. Stay calm. Sometimes it takes longer than expected to resupply your food and drink at these stores. Be patient with the process and focus on being efficient once you're out of the store.
4. Be respectful of the store and say thanks to the employees!
